Temporary Sign Placement in Work Zones

Providing safe accommodations for pedestrians and bicyclists in and around work zones.
Preferred placement of work zone signs
Parking area

Signs placed in marked parking areas may be subject to the review and approval of the city agency.
Landscaped area or planter strip

Signs may be placed in landscaped areas or planter strips adjacent to the street as long as signs are visible to roadway users.
If a planter strip or on-street parking is not available for sign placement, signs may be placed in bike lanes with ACHD approval.
Leave at least four feet of bicycle lane open, measuring from the center of the bicycle lane stripe to the edge of sign or sign base, whichever is wider.
DO THIS:

4’ min.

DON’T DO THIS:

Bike lane

Sidewalk

Bike lane

Sidewalk

Bike lane

Sidewalk
Signs on the Sidewalks

If a planter strip or on-street parking is not available for sign placement, signs may be placed on sidewalks with ACHD approval.
Maintain a minimum of four feet of sidewalk, as measured from the edge of sidewalk to the edge of sign or sign base, whichever is wider.
DO THIS:

- Use the designated bike lane.
- Keep a safe distance of 4' min. from the sidewalk.

DON’T DO THIS:

- Use the sidewalk.
- Do not enter the bike lane when it is closed.
No Sign Zones
Crosswalks are “no sign” zones!

Even when there aren’t crosswalk markings present, signs should never be placed in pedestrian crossing areas.
Accessible parking areas are “no sign” zones

Signs should never be placed in accessible parking areas or on the adjacent sidewalk.
