#### TAKE THE SURVEY!

Your input is important!  
Take the survey by going to the  
following website:  
<http://bit.ly/CapitolBlvd>

#### Project description

The Ada County Highway District (ACHD), in cooperation with the City of Boise and Boise State University, is working on a plan to make Capitol Boulevard between the Boise River and the Rose Hill/Federal Way area easier and more convenient to use for people walking and biking.

#### What are the concepts?

From the information provided at the March open house and through the online survey, four concepts were developed. Your input will be used to help determine what alternative moves forward in the process and how Capitol Boulevard looks in the future.

#### PROJECT OBJECTIVES

- Improve comfort and safety for people walking and biking
- Reduce pedestrian crossing times
- Minimize impacts to motorists
- Maintain access to local businesses

#### CONCEPTS

- A two-way bike lane down the center of the street (*pictured below*)
  - Protected bike lanes on both sides of the street\*
  - Shared-use paths (space for walkers and riders) on both sides of the street
  - A two-way protected bike lane on the west side of street\*
- \*Requires removal of southbound travel lane on Capitol Blvd., south of the Boise River.*

#### Next steps

- The project team will review comments and make a recommendation to the ACHD Commission.
- If the ACHD Commission adopts the plan, ACHD will build when funds are available.

#### How can I participate?

All displays will be posted to [www.achdidaho.org](http://www.achdidaho.org) for review and comment. A link to the survey is located on the project webpage as well. While your comments are always welcome they can be best utilized if received by November 18, 2015.
