Next Steps

The project team will continue to evaluate the system and regional impacts of the preferred network. Activities anticipated in the final evaluation include:

- Detailed traffic analysis
- Continued coordination between agencies
- Exploration of an Extraordinary Impact Fee Zone that will address how new growth pays its share of future needed infrastructure costs
- Network improvement recommendations for final build out
- Preparation of the final study report
- Approval and adoption of the Final Plan by the ACHD Commission, the City of Eagle, and partnering agencies
