

Planned Road & Intersection Projects

The projects shown below are scheduled in the 2018-2022 ACHD Integrated Five-Year Work Plan.

Why isn't Cole Road, north of Lake Hazel Road planned for widening?

ACHD would have to purchase many homes to fit a wider road. This would be nearly \$9 million in property purchases.

Improvements to parallel corridors and the extension to the Gowen/Orchard area are expected to accommodate existing and future traffic on Cole Road.

- Programmed - Priority corridors
- Programmed - Other
- Intersection
- Roadway

What is a priority corridor? Roads and intersections that have been identified as high priority for improvements to help alleviate congestion in area.

PD • “preliminary development”, a phase at which ACHD may spend money on a project that still has no firm construction date.

All information per ACHD's initial draft 2018-2022 Integrated Five- Year Work Plan. Time frames are subject to change.
