

Parking Analysis

The project team analyzed the use of on-street parking for Kootenai from Orchard to Vista. The data revealed that at most, 10% of the on-street parking was utilized during weekdays and weekends. On-street parking was used most in the Roosevelt to Orchard section of Kootenai.

Percent of On-Street Parking Utilized

On-Street Parking Included in the Traffic Calming Concept

To meet the continued need for parking on Kootenai, the concept design includes parking on the south side of the street with minor breaks for chicanes and intersection bulb-outs.

Specific parking locations can be viewed on the large street diagram hanging on the wall.
