Description

The Ada County Highway District is developing alternatives to improve the State Street and Pierce Park Lane intersection. The improvements will accommodate projected growth and align with other planned projects along the State Street corridor.

During the study, we will evaluate:

- Realigning Pierce Park Lane at the intersection with State Street.
- Increasing pedestrian and bicycle connectivity.
- Expanding intersection to accommodate future traffic volumes.
- Reconstructing this portion of State Street to conform with the State Street Transit and Traffic Operations Plan (TTOP), which includes accommodating transit expansion in the future.
