What is a livable street?

A street that balances all users’ needs - motorists, pedestrians, bicyclists, transit, people with disabilities - with adjacent land uses.

Livable Streets can include:

- Bike lanes
- Separated and/or wider sidewalks
- Pedestrian refuge islands
- Parking options
- Traffic calming
- Landscaped medians
- Narrower traffic lanes
- Public art
- Decorative concrete
- Limited number of driveways

COMMENT SHEET QUESTION: What livable street elements are important to you?
