Executive Summary
The primary purpose of the East Boise Neighborhood Bike and Pedestrian Plan is to identify key pedestrian and bicycle improvements to facilitate greater mobility throughout the East Boise area. Projects from the Plan will be prioritized by the City and ACHD as part of the countywide community programs process and be subsequently programmed in the Integrated Five-Year Work Plan.

Facts & Findings
Major sections of the Plan include an introduction describing how the plan will be used, a review of existing plans and policies relevant to the area, a review of conditions and demographics, a needs analysis based on travel characteristics, recommended projects, and an implementation strategy. The Plan was developed with extensive input from the city, stakeholders and the public. Specific public involvement tools included direct outreach to stakeholders, a web landing page, a traditional open house, five small pop up meetings, an online survey, and an interactive mapping tool that allow citizens to make location specific comments.

During the October 25 Commission Meeting, staff will provide a brief summary of the Final East Boise Neighborhood Pedestrian and Bicycle Plan for consideration for adoption.

Fiscal Implication
The East Boise Neighborhood Plan is a project identification tool and does not commit ACHD to building specific projects. Projects will be evaluated and programmed as part of the IFYWP and budget process, in close coordination with our City and School District partners.

Policy Implications
The East Boise Neighborhood Plan supports ACHD’s continued efforts to provide safe and accessible transportation options to people of all abilities. Neighborhood plans are an outgrowth of ACHD’s Community Program and Complete Streets Policy and are fully supported by ACHD partner agencies.

Recommendation
Adopt East Boise Bike Neighborhood Bike and Pedestrian Plan
