

# What We Heard

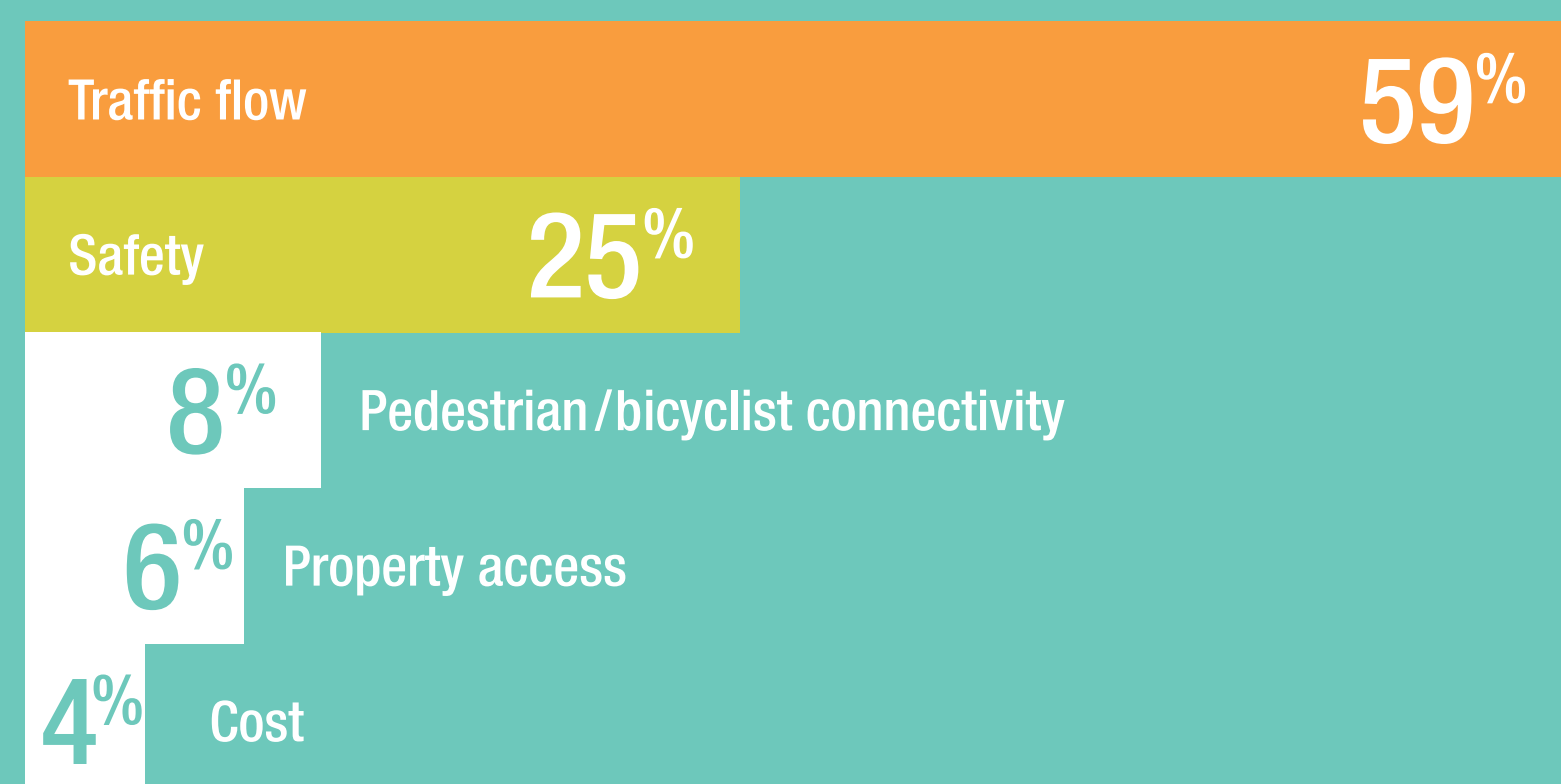

If you took the Linder Road Study survey earlier this year, thank you!  
We were pleased to receive 867 responses.

How do you primarily use Linder Road?

- Pedestrian and bicycling improvements were of average importance to respondents
- The most popular type of pedestrian and bicycling improvements was a separated, shared pathway.
- On a scale of 1-10, respondents rated current traffic performance on Linder Road at 5.

What should our priorities be as we consider future improvements?

## Current issues

- Traffic congestion
- Bike conditions are unsafe
- Difficulty entering/exiting adjacent neighborhoods
- Speed limit too high
- Concerns about school children safety
- Linder Road is too narrow
- Trees block drivers line of sight

## Other Comments

- Design for future growth
- Improve safety
- Maintain rural feel
- Slow down residential construction
- Fears that congestion will get worse with new Costco and Winco in the area
