Honorable Miranda Gold  
Commission President  
Ada County Highway District  
3775 Adams Street  
Garden City, ID 83714

Dear President Gold,

The City of Meridian appreciates the opportunity to submit the attached lists of projects for inclusion in the 2026-2030 Five Year Plan (FYP). Compiling and prioritizing a list of capital, operational and maintenance projects for the Ada County Highway District (ACHD) is an enormous undertaking. The City commends ACHD on the work that goes into preparing the FYP, and the assistance provided to the City during the process.

Our priority lists represent technical merits, community identified priority projects, and areas where improvements are needed today and in the near future. The list of priority projects for 2025 reflects the need to provide improved facilities for Meridian residents and businesses as they continue to experience the impacts of growth in our Valley. The City's top priority continues to be the development of the Linder Road Overpass and the associated roadway widening project between Franklin and Overland. We appreciate your partnership and look forward to working with you and ITD as construction on Phase 1 of the project begins this month.

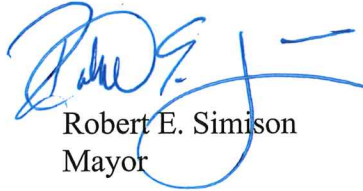

A couple of notable changes you will see in this year's project rankings: 1) the Linder, Cherry / Ustick project has been lowered, however, the City is supportive of ACHD being opportunistic in early right-of-way acquisitions of affected properties understanding it will take time to fully acquire the land needed for this project; 2) the Ustick and Venable intersection has moved up to Priority #10. Improvements to this intersection are becoming increasingly important with the anticipated development of a new community center, and the City would like to help facilitate a Cooperative Development Agreement between ACHD, a developer and the City – much like we did for the Lake Hazel corridor; and 3) the addition of a Community Program (Priority #3) at the Railroad Crossing on Black Cat. The City understands the railroad crossing is included in the scope of the Black Cat, Franklin to Cherry roadway widening project currently slated for design in 2029-2030. However, the City is requesting an interim solution to accommodate both the increase in bicycle and pedestrian traffic, as well as the traffic volume and bottleneck the current

stop signs at the crossing create. This area is experiencing significant growth, and given the recent land entitlements, with others expected in the foreseeable future, an improvement to the currently stop-controlled condition is needed today.

In addition to considering the City's 2025 priorities, the City is interested in collaborating with ACHD staff this year to perform a cost-benefit analysis for establishing either Meridian or Locust Grove, through to Chinden, as a priority transportation corridor in the 2027-2031 FYP. Both of these section-line arterials are key to the transportation network, and the City would like to see at least one of them fully improved between I-84 and Chinden in the near future. We also ask that ACHD make a decision on the type of intersection that will be constructed at Locust Grove and Amity, which is currently number 6 on our list of priorities. As part of that decision, we encourage ACHD to look at all the surrounding intersection improvements and ensure that solution fits the overall transportation network of the area. The City appreciates ACHD evaluating these requests and amending the FYP accordingly.

Thank you for your time and consideration of our request. Please feel free to contact Hether Hill, 208-489-0319, if you have any questions regarding this letter or the attached list of priorities.

Sincerely,

Robert E. Simison  
Mayor
